JNF will build a park in the city of Sderot for the enjoyment of over 2,000 families who lack appropriate outdoor play facilities.

**This important project will contribute to the city's development, provide an essential community service and enhance the quality of life.**

## Sderot Park

The 2 acre park will host sports, leisure and recreation activities as well as community events. It will include sports equipment for all ages including extreme sports and fitness, a soccer field and volleyball court. Landscaping elements include a plaza with a fountain/splash pad, seating areas, pergolas, drinking fountains, trail development and life-saving bomb shelters.

**The park will be built in memory of the 66 brave IDF soldiers who lost their lives during Operation Protective Edge in the summer of 2014.**
