Our Projects

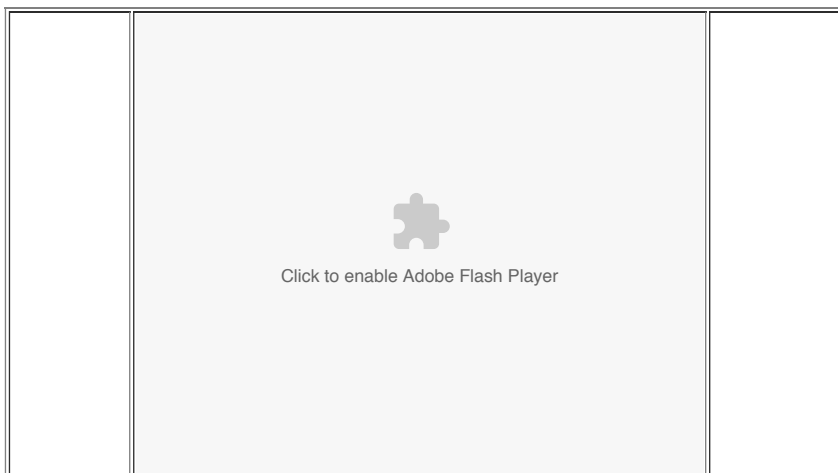

JNF PROJECTS

The history of the Jewish National Fund of Canada and the State of Israel are inseparable. Jewish National Fund of Canada land reclamation projects have created the infrastructure for countless residential areas and other communities across Israel. In addition, the Jewish National Fund of Canada has provided resources to construct new roads, develop recreation and tourist sites, and help increase the country's meager water resources. Jewish National Fund of Canada education programs help foster a better understanding of Zionism, while innovative research projects help a dynamic population create the quality of life necessary for a better tomorrow.

Funds raised by Jewish National Fund of Canada are primarily directed to the payment of wages to workers engaged in various aspects of Jewish National Fund activities.

We are proud of our role in the transformation of the land of Israel in partnership with our brethren in Israel. We remain committed to "reclaiming our homeland" to making Israel beautiful, secure, strong and peaceful. Our Leadership in the work of Keren Kayemeth Le'Israel has continued uninterrupted and we cannot help but take justifiable pride in that we are considered to be one of the leading Jewish National Fund communities in the world.
